

Watchlist

If you have a watchlist, it will show as an option in the Stock Universe drop-downs. This enables you to run screeners against a list of securities that you have previously pre-qualified.

The image shows a web application interface titled "REGRESSION CHANNEL SCREENER". It features a form with several input fields: "Stock universe", "Date range", "Top count", "Sort by", and "Format". A dropdown menu is open for the "Stock universe" field, displaying a list of options: "S&P 500" (which is selected and marked with a checkmark), "Dow Jones Industrials", "Nasdaq 100", "Midcap", "Russell 1000", "Russell 2000", "Russell 3000", "My Portfolio", and "My Watchlist". Below the dropdown menu, a "Run Screener" button is partially visible.

REGRESSION CHANNEL SCREENER	
Stock universe	✓ S&P 500
